

Dynamic Solutions for the Built Environment

From installing complex mechanical systems to replacing chillers or repairing ductwork, Performance Mechanical Group delivers with the highest level of commitment and quality.

Our reputation for being one of the best mechanical HVAC contractors in the Puget Sound area is built on providing the finest system design, project coordination and installation. This ability, combined with our commitment to complete all projects on-time, in-budget and safely has been the hallmark of our success.

Our comprehensive construction service capabilities include:

- **Air Handlers**
- **Boilers & Hot Water Tanks**
- **Chilled Water Systems**
- **Cooling Towers & Chillers**
- **Ductwork**
- **Dust Collection Systems**
- **Environmental Units & Controls**
- **Equipment Modernization**
- **Exhaust & Make-up Air Systems**
- **Gas Piping**
- **Hydronic Piping**
- **Indoor Pool Dehumidification**
- **Low Voltage Wiring**
- **Paint Booth Filtration & Exhaust**
- **Sheet Metal Fabrication**

The diversity of talent and experience of our staff qualifies us for a spectrum of services in mechanical design, analysis, installation and service. At Performance Mechanical Group we are not content to merely install large projects and walk away. This approach allows us to pursue and build long-term relationships.
